Spring Equinox & Temple Dedication

***The world of humanity is possessed of two wings:  
the male and the female.  
So long as these two wings  
are not equivalent in strength,  
the bird will not fly.***  
— ABDUL-BAHA, 1912

Spring is the time of bursting forth, of realizing the potential of warmer days and the growth of a brighter sun. On the equinoxes light and dark are equal in a moment's balance. The Spring Equinox is the time of conception, when the solar light is ascending and overcomes darkness in its eternal dance across the sky.

Now is the time to take action; to launch new projects; set new goals and directions; plant the seeds that you have nurtured, protected, and meditated upon throughout the dark, winter months. At this time of spring transformation, we are given the opportunity to start fresh, enrich the soil of our consciousness, nurture the dreams that inspire us to soar to our highest potential.
